

## **Inclement Weather Policy**

The Lyons Regional Library Director has the authority to close the building during periods of inclement weather, when travel may be dangerous and the safety of patrons or staff warrants such action. Typically, the library will close when the St. Vrain Valley School District announces closure due to severe weather. Notification of closure will be posted when possible at the Library as well as to social media and the Library Web Site. The Director will notify the president of the Board of the Lyons Regional Library District of these actions as soon as possible.
